Vacancies 2022/23

Message from Professor Amanda Broderick – Vice Chancellor & President, University of East London

Now is the ideal time to be joining the University of East London. We have emerged from the Covid-19 pandemic fitter, stronger and more robust. With an even greater appetite to accelerate inclusive talent by realising potential, wherever and whenever it is found, and to advance knowledge & innovation to help people and planet.

As we enter the era of Industry 5.0, we understand the need to think more holistically about what and how we teach our students and create impact in and for the communities we serve. Through our transformative 10-year strategy - Vision 2028 - we are committed to becoming the UK's leading careers-first institution, pioneering future careers and sustainable innovation for a rapidly changing world.

All our students, at every level, have access to our award-winning 'professional fitness and mental wealth' programme of emotional, social, physical & cultural intelligence and digital proficiency development. Other enhanced opportunities include the Career Passport alongside our dedicated Career Zones to ensure we bring students, industry and career specialists closer together. And all this is underpinned by our innovative Technology-Enhanced Active-Learning framework (TEAL 2028) that enhances student engagement wherever they are.

And our ambitions don't rest there. Our world-leading impact in HealthTech and GreenTech is expanded by the launch of our new Centre of FinTech, together with the underpinning cutting-edge education, research and enterprise. This cross-collaboration between Schools aims to widen the talent pipeline, as well as offer research, development and policy to our industry partners and neighbours. With the Elizabeth Line opening, we are now even closer to our business partners in Canary Wharf and the City.

The capital is moving east and the University, the only HE institution in London's Royal Docks Enterprise Zone, is primed to take advantage including leading on the carbon zero goal for the Docks. Our current £200 million infrastructure investment programme is only one sign of this far-reaching transformation.

The significant investment into new staff in the Royal Docks School of Business & Law is an exciting and valuable opportunity for ambitious and enthusiastic professionals, hungry to contribute to the University's transformation and to make a genuine and positive difference in the communities we serve. I am looking forward to receiving your application.

Professor Amanda Broderick

Vice Chancellor & President, University of East London

University of East London Vision 2028

The University of East London is an award-winning careers-first institution. We've been preparing our students for the world of work for nearly 125 years, from the 2nd Industrial Revolution through to where we are now, the 4th and 5th Industrial Revolutions.

Located in one of the world's most multicultural areas, our 25,000 students are a microcosm of creative diversity, representing 156 different nationalities. With London campuses in Stratford and in Royal Albert Dock, the University is at the heart of the industrial and creative shift east. The University offers specialist programmes that ensure our students have the skills, emotional intelligence and creativity necessary to adapt to a constantly evolving world and its new technologies.

With our 10-year strategy, Vision 2028, we are transforming our curriculum, pedagogy, research impact and partnerships, to make a positive difference to student and graduate success and create a lasting impact on our community.

Our vision is to become the leading careers-first university in the UK. But our strategic priorities also include a commitment to becoming a net-zero carbon institution by 2030 and harnessing the power of sport to transform lives individually, locally and nationally.

In 2021, we celebrated the launch of our multi-million-pound Connected Campus improvement programme, designed to increase the accessibility of our campuses to our community and to enhance the education and industry interface digitally and physically.

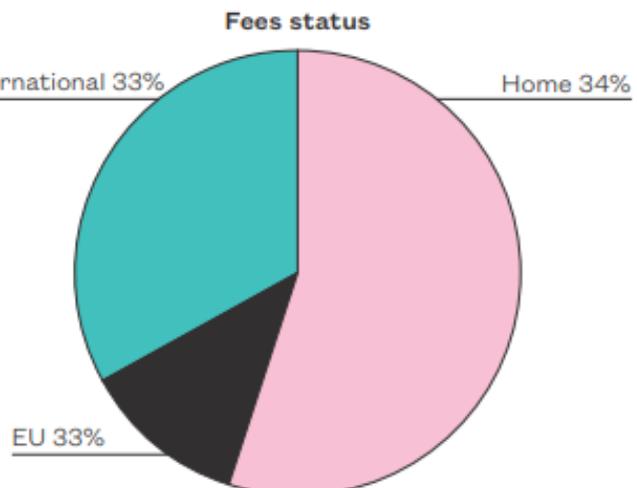

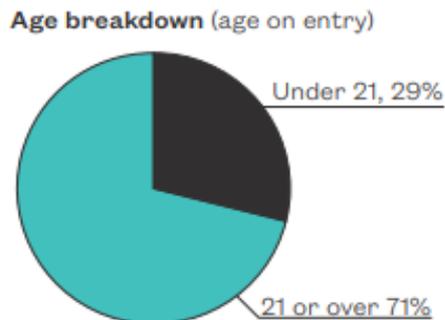

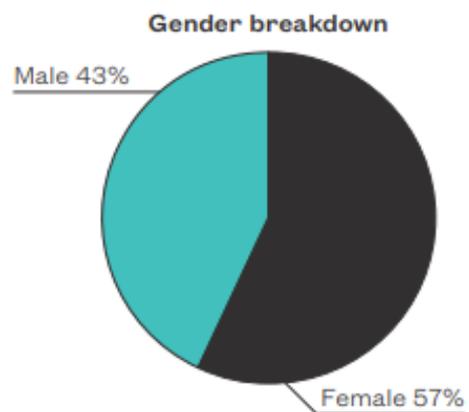

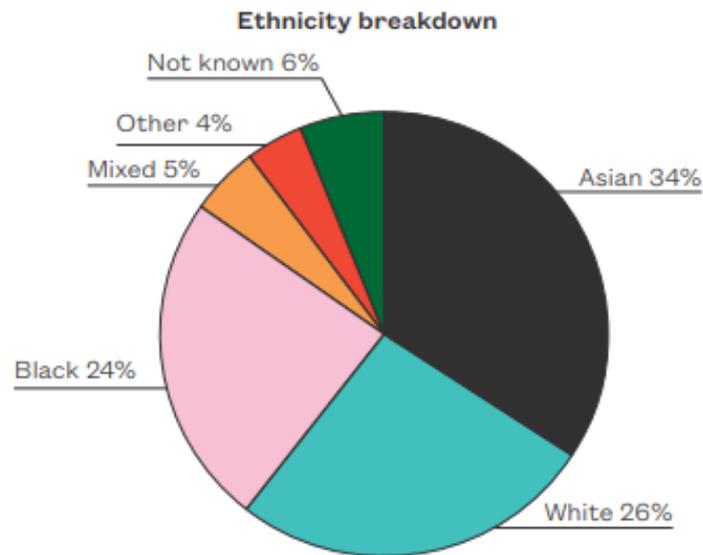

We are at the start of an exciting journey that promises to develop potential and help students realise their dreams.

The University of East London in numbers

25,195

total students enrolled at UEL and partner institutions in 2020/21
(As at 1 Dec 2020, this figure included 17,634 at UEL, 4,454 at overseas collaborative partners, and 3,107 at UK collaborative partners)

52%

of our students are the first to attend university*

The Royal Docks School of Business & Law

The Royal Docks School of Business & Law is a contemporary and vibrant learning community where we focus on providing a transformational educational experience for our students. With a clear focus on creating graduates of the future, we are a key School within an ambitious University. Based in the fast growing and diverse environment of east London and Docklands, the school is well positioned in a community benefiting from substantial inward investment and regeneration.

The School has strong links with industry partners from a range of sectors who help to inform and enhance our curriculum. Our careers focus means that we are not only delivering degrees shaped to meet the needs of industry, but we are also preparing students for careers of the future – giving them the skills to adapt to and thrive in a rapidly changing employment market.

We are going through a number of exciting developments with the ambition to become the leading post-92 School of Business and Law for career development. Part of this growth includes a range of new appointments that we are looking to make to add to our creative and ambitious faculty.

We take pride in all our staff and students, who are talented, hard-working and come from rich, diverse backgrounds. We are driven to provide the best qualifications, practical ability and career support, so that our students and graduates have the best possible chance of developing a great career in their chosen field. Our academics deliver original and innovative teaching ensuring that students are academically challenged.

If you are an ambitious and creative individual who wants to work for a like-minded university, then we invite you to join us at this exciting time.

You will work to develop our programmes in a fast-changing market and deliver a distinctive education focused on future-proofing the skills of our students.

Professor Mohammad Ali
Dean of Royal Docks School of Business & Law
University of East London
